

My PDF Report with R Markdown

My Name

Simple Linear Regression :

$$\begin{aligned} X\beta &= Y \\ \Rightarrow X^T X\beta &= X^T Y \end{aligned}$$

Here is some R code :

```
# Define the cars vector with 5 values  
cars <- c(1, 3, 6, 4, 9)  
# Graph cars using blue points overlayed by a line  
plot(cars, type="o", col="blue")  
# Create a title with a red, bold/italic font  
title(main="Autos", col.main="red", font.main=4)
```
